God & I

Rahul Mishra

Assistant Professor,
Department of Humanities

I wish to fly

Beyond the sky

I desire to have wings

To fulfil the longings

I pray to deity

To ascertain my identity

Instruction I hear

Do work hard not prayer

I am in your heart

Don't apprehend me in part

I am everywhere

Don't sense me only in sphere

The world and creation I made

Plant, flowers, and trees with shade

Birds with the speedy wings

All offered you necessary things

Dense forest, ocean and beautiful hills

Adorned nature and routinely refills

There we can easily find

Joy, Happiness, and peace of mind

Animals like Lion, Tiger and Mouse

Generate fear by fangs and claws

Raged in the forest edge

Create the panic in village

Horse, Cow, and deer

Make human life easier

Provide the useful things

Far better to the Human beings

Crave for completion of wish

Make humans selfish

Longing for ruling and success in mind

Transformed people blind

Unfortunately the beautiful attire of earth

Hidden in the pall of dearth

Love, affection and sacrifice

Clouded by deception, lamentation and cries

Pain, sadness and suffering

No one knows from where it is coming

Human is in its covering

Everywhere Happiness is missing

I listen the message of God
Repentfully uttered my Lord
Blessed me to help other
Not for one or two days, must be forever

Now I was happy and fine
No crying for shine
Internal and outer feelings were hurled
Happily livening in this physical world
